

PRODUCT SPEC SHEET BOOKLET

Collection of Our Hoist System
and Truck Bodies

AUGUST 2023

Subsidiary of Federal Signal Corporation

Interchangeable Truck Body System

HOIST SYSTEM

Patent: US 11,214,186 B2

Body Hold Downs

Universal design to secure multiple body lengths* with one system

*Bodies must be system length or shorter

Hook Storage

Integrated cable hook stowing on both sides of system

Pendant Control

Simple design for single-handed operation

Swivel Hook

Reduces cable stiffness for improved cable spooling and body attachment

Slide Pads

Provide low friction body support and reduced wear on the system/body rails

Body Rollers

Single piece, pre-lubricated and bolt-on design for smooth rolling

Electronics System

Fully enclosed and waterproof junction box with an IP 66 rating

V Roller

Poly material to reduce excessive wear and extends cable life

Pump Cover

Provides additional protection to the pump

H SERIES

HOIST SYSTEM

H Series is a full hydraulic hoist system built for heavy duty workloads and is ideal for class 5-7 chassis cab vehicles with a GVWR of 16,001lbs-33,000lbs.

18,000 lbs 15,000 lbs

| Model Name | Dumping Capacity (tons) | Minimum CEF (in.) | Winch Capacity (lbs) | Overhang Length (in.) | Typical CA (in.) |
|-----------------|-------------------------|-------------------|----------------------|-----------------------|------------------|
| 11-4016-15H-10T | 10.3 | 132" (11') | 15,000 | 18" | 84"-96" |
| 11-5020-18H-14T | 14 | 132" (11') | 18,000 | 18" | 84"-96" |
| 14-5020-18H-10T | 10.3 | 168" (14') | 18,000 | 18" | 120"-138" |

Specifications are subject to change without notice. The Gross Vehicle Weight (GVW) or Gross axle weight rating (GAWR) will limit the operating capacity of the vehicle upfitted with a hoist system. For Switch-N-Go* product warranty information, please refer switchngo.com/warranty.

OPTIONS

- Wireless Remote
- Compatible Gooseneck

FEATURES

- Ideal for chassis cab vehicles with a GVWR of 13,500-33,000lbs
- Compatible with vehicles ranging from 60" CA to 138" CA
- Bolt on design allows for easy transfer between chassis
- Easy single handed operator controls with in-cab and on-hoist connection points
- Variety of dump capacities up to 14 tons

E SERIES

HOIST SYSTEM

E Series is an electric powered hydraulic hoist system built for medium duty workloads and is ideal for class 4-7 chassis cab vehicles with a GVWR of 13,500lbs-26,000lbs. The system is designed to handle six fully loaded winch draws per day.*

15,000 lbs

| Model Name | Dumping Capacity (tons) | Minimum CEF (in.) | Winch Capacity (lbs) | Overhang Length (in.) | Typical CA (in.) |
|-----------------|-------------------------|-------------------|----------------------|-----------------------|------------------|
| 10-4016-15E-11T | 10.8 | 120" (10') | 15,000 | 18" | 72"-84" |

| 14-4020-15E-9T | 9.3 | 168" (14') | 15,000 | 18" | 120"-138" |
| 14-5020-15E-10T | 10.3 | 168" (14') | 15,000 | 18" | 120"-138" |

* A fully loaded winch draw is equal to the rating of the winch, which is 15,000lbs. If you are loading 15,000lbs (body and payload), the system can pull six loads per day. If you are loading a lesser weight, the system will be able to pull more than six loads per day. For example, if your load is 10,000lbs (body and payload), the system can pull approximately 10 loads per day.

* Refer to your vehicle operator guide for manufacturer recommendations on GVWR.

- Hoist System can raise up to 50° dump angle
- Strong, lightweight system to maximize truck payload
- Self-engaging front body lock to secure body during transport and dumping

Interchangeable Truck Body System

Subsidiary of Federal Signal Corporation

DUMP BODY

FEATURES

- High quality zinc prime & powder coated finish
- Ramp gate for drive-on convenience
- Accepts underbody salt spreader
- 12" side height & 24" tailgate height
- Optional extended board pockets
- Standard 6" steel dump body ground rollers
- Custom options available
